## Community Service

### Global Encounters Programme · Service Trip to India

- Part of a service expedition trip to India where I worked with students from 13 countries worldwide
- Focused on community service, leadership and culture where we performed service learning with a local school in Hyderabad
- Implemented on rebuilding the library system to enhance learning abilities and performed a variety of mental health workshops to relieve stress and anxiety which was a posing problem
- In addition, we explored the healthcare system of India in rural areas in Gujarat as well as Hyderabad where we learned about the barriers that locals have to face to receive accessible healthcare and what large entity organizations such as the AKDN with support from the Government of India are doing to address these issues.
